\* Distances quoted are with an Industry Standard rider weight of 75kg riding on a level surface with no wind.

### CROSS BAR STYLE

We continually strive to ensure that we provide you with the best possible products, therefore SPECIFICATIONS ARE SUBJECT TO CHANGE WITHOUT NOTICE.

The Francis-Barnett brand was founded in 1919 with the aim of not only producing bikes for enthusiasts, but also targeting the need for reasonably priced personal transport.

These new bikes, whilst not motorcycles, still follow the ethos of the original founders. They are a quality, hand built, mode of transport for the modern era.

The new vintage styled bicycles have the distinctive Francis-Barnett livery and are equipped with electric bike technology as used on the BATRIBIKE range of electric bikes.

They are hand finished at the Batribike facility in Lincolnshire.
